

LION MARKETPLACE

A STREAMLINED WAY FOR LMU STUDENTS TO BUY AND SELL DESIRED PRODUCTS

Motivation

Throughout our four years in college, we saw how much waste is generated by college students. Every year, students throw away couches, pillows, microwaves, etc because they either do not have need for it anymore, or are hesitant to sell on a website open to the entire community of Los Angeles.

Technologies Used

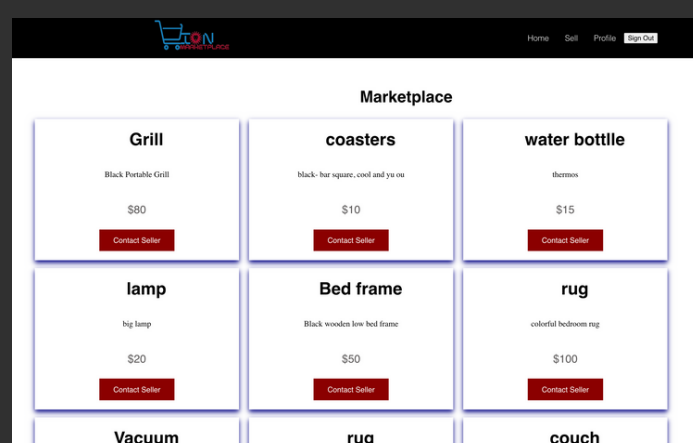

What and Why?

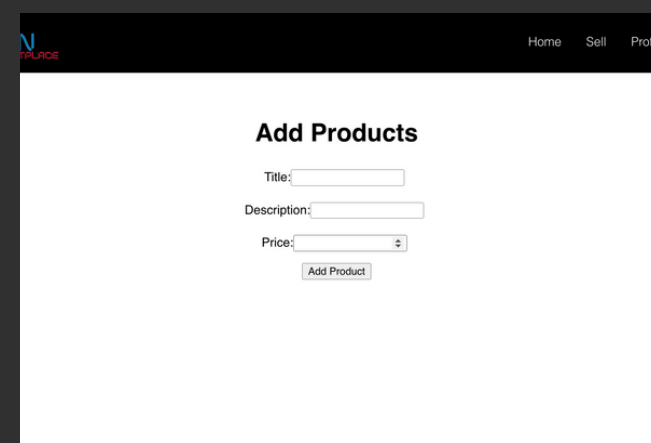

What - Lion Marketplace is a free web app that provides a safe environment for LMU students to buy and sell furniture, art, housing essentials, etc.

Why - Our goal is to provide a safe and cost efficient app to promote the recycling of goods between LMU students.
